

FRENZI

MIRRORING YOUR JOURNEY WITH LOVED ONES.

We know that the world can often be a scary place, and although we would love to wrap our loved ones up in cotton wool, and know that they are always safe, we also know this is unrealistic.

FROM A FAMILY, FOR A FAMILY.

This feature was especially important for us to implement into our business app. It aligns with our values and what we feel passionate about.

SO, YOUR CHILDREN ARE NOW ALL GROWN UP.

The day you have been dreading springs on you from nowhere. You want to slow down time and have your children under your roof at home, safe.

On the other hand, your children have been awaiting their 18th birthdays, it feels like their whole life has been leading up to this huge milestone and they are finally so excited to spread their wings and enjoy the big wide world ahead.

The first
beer.

Their first
night club
experience.

Even their
first job.

Knowing you have the ***mirror your loved one feature on your Frenzi app will help ease those fears.*** You can put your mind at rest while you monitor your children embarking on their next life phase. Knowing what car they are in, their driver, and what streets they are passing through until they arrive safely at your front door.

YOUR FLAT MATE IS GOING ON A TINDER DATE.

Not only do you want to know all the details, but you have heard the horror stories of first dates going wrong and you want to *ensure they are always safe.*

You can now relax and enjoy your favorite Netflix movie at home whilst *mirroring* loved one and awaiting their safe return, with popcorn at the ready.

MUM IS WORKING A NIGHT SHIFT AT THE HOSPITAL.

She is due home in the morning before breakfast time. You wake up and flip to your Frenzi app to see that she is half an hour ahead of time and she is already on her way home.

Time to get dressed and complete the list of chores!

YOUR GRANDDAD IS DOING HIS WEEKLY GROCERY SHOP.

Last year he had a bad fall that resulted in a hospital stay. He enjoys his independence and will not accept help from loved ones.

He has agreed to take a Frenzi instead of walking up the hill, giving his loved ones more peace of mind as they *mirror* their loved ones on the weekly return trip to the supermarket.

We know that these stories all differ in terms of the situation, but the moral of the story remains the same.

FRENZI AND LOVE GO HAND IN HAND WITH MAKING THE WORLD GO ROUND.

Mirroring your loved one, one trip at a time.
